PUBLICATIONS

Characteristics of copayment offsets for prescription drugs in the United States March 2021
with Aditi Sen, Emaan Rashidi, So-yeoung Kang, Caleb Alexander, and Gerard Anderson, Published in JAMA Internal Medicine
This cohort study found that the source of approximately half of offsets arose from pharmacies or pharmacy benefit managers, and half from pharmaceutical manufacturers. Offsets were concentrated among a small percentage of medications, and use did not vary substantially across counties of varying socioeconomic characteristics.
